**Wisconsin Families Speaking  
on Behalf of Children and  
Youth with Special Health  
Care Needs and Disabilities**

Home of Wisconsin's Family to Family  
Health Information and Education Network

## Our Work

We support families throughout Wisconsin with a focus on health care and community supports and services through:

- Information, training and education, including face-to-face and online training, newsletters and fact sheets;
- Family leadership, including the Family Action Network listserv and our annual Advocacy for Change event; and
- Public policy initiatives based on issues identified by families at listening sessions and trainings.

## Our Network

**Family Voices of Wisconsin** is a statewide network of families who have children and youth with special health care needs or disabilities and those who work on their behalf.

We are committed to strong partnerships between families and providers to improve the systems of supports and services for children.

## Our Beliefs

Children are children first, regardless of their diagnosis. Supports and services should be family-centered.

Children and youth are best served when their families work as partners with providers to make decisions about their care.

Families have great capacity to care for their children when they have informed choices and appropriate resources.

Health and community services must respect and honor the unique culture and beliefs of each family.
